Re: Document Number: [REDACTED]  
Document Date: 8/13/2002

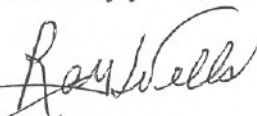

On July 10, 2002, we sent Kenneth B. Cook, \$435.95 for an order. Here we are 4 MONTHS LATER and the order has yet to be filled. I understand that Cook turned our money over to you except \$162.45 of the order he sent to us. According to your document # 022940, you shipped us \$148.30 in merchandise. We are still due per your document and our records \$137.95. He sent us a crappie message, "Rest of order will come from: Eagle Awards and Trophy."

I'm sure you and your company are great people and in all due respect to you, I do not appreciate Cook sending our funds to someone we knew nothing about and no means of contact. . Frankly, Cook had no authorization from us to just quit us and send our money to someone we did not know about. I understand from my Quartermaster, Cook owes your company money. That sir, is not our problem.

I detest people who do not do their job and it is obvious to us Cook has no sense of business, and could care less about our situation. His attitude made him a poor Quartermaster. That my friend has caused our chapter undue problems. Unfortunately for our National Association Cook was appointed 2nd Vice President. I guess his ego for a National Office left our Quartermaster in an extreme poor situation.

You bet I am upset and have little to no respect for Cook, because no one with any business sense would have put us in this situation. I would appreciate your promptness in sending us a refund check for \$137.95 payable to our chapter. Four months is long enough.

Sincerely yours,
